**PETITIONING THE COURT**

To incorporate the below alleged violation with the violations previously reported to the Court on March 10, 2023 (ECF 66).

On December 21, 2022, the supervised release conditions were reviewed by Mr. Wheeler, indicating an understanding of his conditions.

The probation officer believes that the offender has violated the following condition of supervision:

<u>Violation Number</u>	<u>Nature of Noncompliance</u>
-------------------------	--------------------------------

3	
---	--

	<b>Special Condition #3:</b> You must abstain from the use of illegal controlled substances, and must submit to urinalysis and sweat patch testing, as directed by the supervising officer, but no more than 6 tests per month, in order to confirm continued abstinence from these substances.
--	---

**Supporting Evidence:** Mr. Wheeler is alleged to have violated his conditions of supervised release by consuming methamphetamine between March 20 and 24, 2023.

On March 27, 2023, Mr. Wheeler reported to the probation office as directed. A random drug test was collected and tested presumptive positive for methamphetamine. The sample was sealed in front of Mr. Wheeler and sent to Alere Laboratory for confirmation. Mr. Wheeler admitted to consuming methamphetamine the previous week, however, did not remember the date. On March 27, 2023, Mr. Wheeler signed a drug use admission form admitting to consuming methamphetamine between March 20 and 24, 2023.
